Education programs

There is no better way to learn about the birds of prey in north Texas than to meet them in person.

Blackland Prairie Raptor Center's birds of prey have many years of experience introducing children and adults to the world of raptors. These **hawks, owls** and **falcons** are well trained, and with the assistance of BPRC education specialists, show you what makes them an important part of our environment.

The presentations, approximately 45 minutes long, are available to all schools, home school groups, youth organizations and community groups.

Programs include:

Who's There in the Dark?

A fun and educational introduction to raptors for children ages pre-K (minimum age, 4 years old) through Kindergarten. A **live owl** will visit your classroom to help children discover the mysteries of the night. Where does an owl live, what does an owl eat, and how does it get food? This program designed especially for our youngest naturalists. (maximum group size 25).

Blackland Prairie Raptor Center

Night Flight

Discover the habits and habitats of the nocturnal raptor of our area. **Live owls** will visit to illustrate the special adaptations required for night hunting.

Predators from the Sky –

Gotcha Covered!

Day and night the raptors are on patrol. Their mission...in search of a meal. How do they do it? Discover their unique adaptations to hunt in woodland, wetlands and prairies. Two raptors, one diurnal and one nocturnal will be used to demonstrate their capabilities. Program adaptable to all ages.

Having live birds of prey visit your classroom or organization gives you the opportunity to appreciate the importance of these magnificent animals!

BPRC's programs have been seen by more than 15,000 students in north Texas.
